

We know that end of life decisions are incredibly hard when it comes to our pets. To help guide you during this difficult time, we suggest using the below tools to help you assess your pet's quality of life. The calendar below can be used to track your pets good and bad days.

Mark each day with an "O" for good days and an "X" for bad days.

SUNDAY	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY

Total number of: Good days _____ Bad days _____

The scale below will help you assess your pet's quality of life a little more in depth. The goal is to keep the score at 35 or higher. Anything less than 35, please contact the clinic to discuss with one of our doctors

Scale	Key Factors	Score/Notes
1 - 10	Hurt – Is your pet's pain successfully managed? Is their breathing distressed?	
1 - 10	Hunger – Is your pet eating enough food? Does hand feeding help?	
1 - 10	Hydration – Is your pet drinking enough water? Do you need to entice them?	
1 - 10	Hygiene – Is your pet able to stay clean? Are they suffering from pressure sores?	
1 - 10	Happiness – Does your pet express joy and interest? Does your pet still enjoy their favorite things?	
1 - 10	Mobility – Can your pet get up without assistance? Are they stumbling?	
1 - 10	More – Does your pet have more good days than bad? Is a healthy human-animal bond still possible?
